

Sociology

How does the environment influence our attitudes and behaviour?

Catalyst Clemente Program Description

The Catalyst Clemente Program has been running in Newcastle since 2009. It provides a university education comprising four humanity subjects, which leads to the award of a **Certificate in Liberal Arts**. The next unit is 'Sociology' and will be taught by Dr. Wendy Elsworth from the University of Newcastle.

The study of sociology will give you insight into the operation of social actions and processes in families, education, health, crime and deviance, ethnicity, gender, sub-cultures, religion, environment issues and many more. Through it you can gain a broad perspective on our world and many valuable skills.

Program Structure

This unit begins Tuesday 27th July 2010 with 12 lectures over 14 weeks. Lectures are from 10am to 12 noon.

Learning Partner sessions will be on Wednesday afternoons from 3.00 – 5.00pm

Venue: The program is hosted by CatholicCare at 882 Hunter Street, Newcastle West.

If you are interested complete the slip below and return to:

Pamela Cathcart: Catalyst Clemente Newcastle Coordinator
